Another Train Wrecked on the Fatal Hill.

A Brake-Beam Drops and the Train Parts Into Three Sections — Gallant Action of Brakeman Cochran—He Stops Five Emigrant Cars.

TEHACHEPI, May 24.—The emigran train No. 22, bound north, consisting of thirty-two loaded box cars and five emigrant cars and caboose, in charge of Conductor Moore, with two brakemen, was wrecked going down the hill one mile north of this place. The accident was caused by a brake beam dropping on the track. When the brake beam dropped the train broke in three secconsisting of the five emigrant cars and the caboose and the five box cars, four of which left the track and were badly wrecked. The middle section consisted of five box cars and the front section of twenty-two box cars and the engine. In this section were both the brakemen. Alexander Cochran, one of the brakemen, was in the rear, and seeing the five box cars following them, signaled the engineer to run out of danger. He then jumped from the train, and, at the risk of his life, boarded the five cars and stopped them. The train had one hundred emigrants on board. LATER .- A wrecking train from Tu lare reached here this morning.

Eastern Trank Lines Break with CHICAGO, Ill., May 24.—At the Iow Trunk Line Association the Commis sioner submitted a dispatch from Fink announcing that the Eastern trunk lines have decided to stop all pro-rating ar rangements on California business, and that hereafter they will charge on such business their regular proportion. Since New Orleans, Central Pacific people have been diverting all the business they could to go by steamer t to San Francisco. Besides this, the Central Pacific for many years past has made contracts with California shippers who pledge themselves to make no ship Steamship line, by giving them rates about one-third of the published tariff rates. After discussing the matter for some time, during which opinions were expressed that the action of the trunk lines was just and proper and calculated to break up the discrimination hereto-fore practiced by the Central Pacific, quest the various Pacific roads west of the Missouri river to meet the Iowa trunk lines in this city next Tuesday.

When asked if he thought the expedition across the Mexican border was liable to terminate disastrously for the troops, he replied: "I think Crook understood the situation perfectly before derstood the situation perfectly before he made the venture, and I do not think he would imperil the lives of his men

out the least danger.

Prepared especially for killing Squirrels, Gophers, Rats, Ants, Moths, Weevil, Phylloxers, Scale, Lice, &c. Is a liquid, which, when applied, fills the burrow with its vapor and thereby kills every occupant of the hole without injuring anything outside. The animal cannot get away but dies in the hole and never becomes offensive. Comparing it with other poisons we find that strychnine poisoned wheat. Phosphorus &c. are all inferior to the sulphide in being apt to kill the pet dog, sheep, insectiverous bird, &c. The animal may eat them or to as it pleases, and if eating crawls out and creates a steach or poisons the dog, cat or other pet. Read & Foster's Bi-aulphide is safe, cheap and effective, and can be applied by anyone at any time without the least danger. The vapor of this meterial is heavier than air, and by its pressure reaches quickly every-crack, crevice or department in the hole, destroying immediately all animals or insects contained therein.

The Carbon Bisulphide is put up in one and three-pound bottles, and six, twelve and fifty-pound cans. Each bottle or can is accompanied by complete directions, and is ready for field work. Manufactured and prepared by READ & FOSTER, Los Angeles Chemical Works. All orders and communications to be sent to Reed & Foster, at factory, or P. O. Box 1923, Los Angeles city.

Compton.

The District Lodge of I. O. G. T., held at this place on the 18th and 19th instant, was a decided success.

Col. Goulding is a king among lecturers. He held his audience at each lecture as if spellbound, while he depicted the devastation, horrors and realities of the rum traffic. His last audience was his greatest, and so was his lecture, which resulted in a better and more enlightened feeling on the part of all, and with many, a determination to win. Eight new members were added to Evergreen Lodge, and four more are elected to be initiated next Tuesday evening. Next District Lodge meet.
